

Kern County Raceway Park INEX Legends Fuel

Kern County Raceway Park is a spec fuel facility. Therefore the following change is made to take effect on September 1, 2013.

Pursuant to INEX Legend rule 30 Fuel the following fuel rule shall be followed:

All fuel used in the Legend Car series shall be Shell 91 octane unleaded and it must be purchased at the designated Shell station at the corner of Hwy 43 (Enos Ln.) and Hwy 119 (Taft Hwy). The fuel must meet the following specifications

A All cars must use CARB Phase III Unleaded Gasoline only. (California Air Resources Board street legal gasoline.)

B Gasoline may not be modified or adulterated.

C Alcohol, ether, oxygenates, aniline or its derivatives, nitro compounds or other nitrogen bearing compounds may not be added. Nitrous oxide and MTBE are prohibited.

D Gasoline may not be mixed with any fuel other than CARB Phase III Unleaded Gasoline.

E Maximum ethanol content: 10% by volume.

F The cooling of the fuel system of the vehicle is prohibited.

G The cooling of the gasoline is prohibited.

H FUEL SAMPLES

(1) KCRP Tech Officials have the right to sample a Competitor's fuel at any time during the event.

(2) Samples will be impounded for observation and/or testing by the KCRP Tech Officials and /or any outside laboratories at KCRP's discretion.

(3) The use of illegal fuel which does not conform to CARB Phase III Unleaded Gasoline can result in disqualification from the event, loss of points, and loss of winnings or other penalties as determined by KCRP's officials.
